

GLASS PRESENTS FIVE BILLION DOLLAR BUDGET

LIMITATION UPON DEBTS IS PLANNED

Ohio Legislature to Begin Extra Session Monday Evening At Five O'clock.

Prohibition Enforcement Among Important Matters To Be Considered.

(By Associated Press)

Columbus, O., December 1.—If the Legislature which reconvenes this evening accepts the recommendations of the joint taxation committee relative to the debt limitation, cities will be limited in the amount of debts they may incur to 4½ percent of their total real estate duplicate.

Prepared to complete the state's new taxation program and to enact a prohibition enforcement law, the state legislature will reconvene at five o'clock after a recess of almost six months. This evening's session will consist only in a roll call of members, actual work not beginning until tomorrow.

The taxation program which has been in progress of preparation by the sub-committee of the joint legislative taxation committee, consists of a graduated automobile tax law based upon horsepower of machines; an income tax law modeled after the federal income tax law; a law to curtail the debt incurring power of cities and other taxing districts, and amendments to the school law that will furnish more adequate aid from the state to weak school districts. Bills to carry out this program are expected to be introduced soon after the session begins.

It is not expected that dry leaders will attempt to obtain the enactment of a prohibition enforcement law which contains many of the definite restrictive provisions which were contained in the Crabbe bill defeated by a referendum at the recent election. The new bill, it is anticipated, will be short and contain only provisions for enforcing the constitutional amendment as a general proposition. No effort probably will be made to define intoxicating liquor as federal laws cover this phase of the enforcement question.

MOST SOLONS ATTEND SESSION

(By Associated Press.)

Washington, December 1.—The Sixty-sixth Congress met today in its first regular session which was expected to continue until just before the presidential election next fall.

There was a large attendance both in the Senate and House when the gavels fell promptly at noon.

In accordance with an agreement reached between republican and democratic leaders the usual formality of appointing a committee to notify the President that Congress was in session was dispensed with because of the President's illness and a formal communication of notification was sent instead.

Peace-Time Activities of Government For Year to Cost Enormous Amount.

Interest On War Debt Exceeds One Billion Dollars of Estimate Furnished by Glass

Budget Five Times Greater Than In Any Peace-Time Year Expenditures.

Billion And Half For Army And Navy And \$315,000,000 for Pensions.

(By Associated Press.)

Washington, December 1.—The record billion dollar congresses of ordinary peace times faded into the past today when Secretary Glass, presenting the annual estimates, proposed appropriations of practically five billion dollars for conducting the peace time activities of the government during the fiscal year 1921.

According to these figures it will cost more than five times as much to conduct the peace time affairs of the government as it did in the year immediately preceding the world war.

The greatest individual estimate for expenditures go to the army and navy. The yearly interest on the war debt, however, is \$1,017,500,000, which sum alone is greater than all the appropriations for all purposes whatsoever of any peace time congress.

The estimated appropriations for the principal departments are: Legislative (Congress), \$9,025,297.25; Executive (White House and government departments), \$149,111,463.77; Judicial, \$1,634,190.00; Army, \$989,578,657.20; Navy, \$542,031,804.80; Public Works, \$283,921,810.17; Miscellaneous, \$833,717,637.96; Foreign Inter-course, \$11,243,250.91; Pensions, \$315,030,000.00.

Latest United States Note Declares Mexico Has Made Studied Effort to Ensnare Jenkins.

Points to Fact That Mexico's Second Largest City Overrun With Bandits.

American Citizens Aroused Over The Treatment of Jenkins.

(By Associated Press) Washington, December 1.—Renewing its request for the immediate release of Consul Agent Jenkins, imprisoned at Puebla, the latest American note to Mexico arraigns the Mexican government's conduct in severe terms.

No ultimatum was served and no indication was given of what the American government's course would be if Jenkins is not immediately released. The note says the only conclusion this government can draw is that Mexico has made a "studied effort" to ensnare Jenkins in legal intricacies and divert the attention of the American and Mexican people both from the fact that the second largest city in Mexico is overrun by bandits, and that the Mexican authorities have been negligent.

"It appears," says the note, "to have been the purpose of the Mexican government to assume a willful indifference to the feelings of the American people that have been aroused to the point of indignation by the exposure, hardship and physical sufferings of Jenkins during his abduction and treatment at the hands of the Mexican authorities."

The note says the United States declines to be drawn into a judicial discussion of "irrelevant or unimportant matters" and says the request for the consular agent's release is founded on right and justice.

The United States, the note says, is constrained to the opinion that Carranza arguments that the case is being investigated and that Jenkins has not taken opportunity to be released on bail are "mere excuses."

NO MARKED MOVEMENT BACK TO THE MINES IS MADE BY STRIKERS

MUCH WORK CONFRONTS LAWMAKERS

Congress Began "Regular" Session Monday Morning With Months of Work.

Politics Again Expected to Play An Important Part in The Legislation.

Washington, December 1.—Many month's work on a great variety of important subjects, international and domestic, were before the 66th Congress Monday when it met for its second and "regular" session, which was expected to close only with the presidential campaign next fall.

Members of both Senate and House returned to work with only ten day's rest since the adjournment of the extraordinary session which ended November 19, when the Peace Treaty failed of ratification in the Senate. Because of the extra session the opening day lacked much of the usual bustle attending the launching of a new session.

With the Congress already "in harness" with much legislation ready for immediate consideration, little delay in the beginning of the work was expected. Calling of Senate and House rules for quorums, appointment of Committees to notify the president and each other that Congress was again "on the job" were among the customary opening formalities.

Besides legislative recommendations, President Wilson's message was expected to deal with international relations and particularly with the treaty of Versailles. While early ratification of the treaty with compromised reservations was expected by many senators, with hope of action before the new year, leaders believed the issues involved would be carried into the presidential campaign.

Politics is due to play a large part in the events of the new session, the last before the nominating conventions next summer and the final campaign in the fall. Leaders propose to have Congress recess for the conventions and work through afterward into October.

Enactment of legislation is expected to begin immediately. The Senate today had pending, with privileged status the Cummings railroad bill with its provisions against strikes and for return of the railroads to private ownership. In the House, the bill to restrict immigration and provide for deportation of alien radicals was first on the calendar. The House probably will be occupied largely with the appropriation bills for many weeks and leaders hope to enact several measures before the holiday adjournment, to begin about December 29 and continue to January 5.

Long debate on the railroad bill in the Senate was anticipated and leaders had little hopes of its enactment before January 1, the date on which the President has said the roads would be returned to private operation. A temporary resolution continuing guaranteed compensation for the carriers until permanent legislation is completed will be passed if necessary.

Further Stringent Measures To Conserve Coal Announced By Officials.

Schools Are Closed in Kansas City and Lincoln Because Of Fuel Shortage.

Most Organized Mines Remain Idle in Face of Increased Pay Offered.

(By Associated Press)

Chicago, December 1.—Further stringent regulations for conservation of fuel supplies made necessary by the strike of bituminous coal miners, who have now been idle a month, were in effect today over virtually the entire country between Ohio and the Rocky Mountains and from Canada to the Gulf of Mexico.

Regional fuel committees took control of coal supplies in many states, and non-essential industries continued to close down because of lack of fuel, while the hours for operating stores, theaters and office buildings were curtailed.

In Kansas City, Mo., and Omaha and Lincoln, Neb., all schools were closed today, and officials of many other cities discussed the advisability of closing the schools until the fuel shortage is relieved.

Reports today from the large bituminous fields of Illinois, Indiana, Ohio, and Pennsylvania gave no assurance that the union miners intended to accept the offer of an increase of fourteen percent in wages made by the Federal Fuel Administration.

Neither was there any indication that local settlements would be effected between miners and operators. In West Virginia officials asserted that most organized mines would be idle today.

STRONG WIND IS CAUSE OF DAMAGE

The high winds of Saturday afternoon caused quite a little damage in the city and county, scattering limbs of trees about, blowing down signs, fences and telephone lines.

Electric light wires were broken adjoining the Dahl-Campbell building and the live wires started a fire on top of a box car.

A heavy limb, falling from a tree near the Christian church on North North street, struck upon the sidewalk.

Coats

It would almost seem as though the separate coat had learned a lesson from the military cape, and taken to itself the comfort of long lines and height-producing fullness, even while it hides every sign of this same cape like freedom in the fascinating variation of a most elastic mode.

There are exquisite fabrics of soft silky texture, tricotines and mannish worsteds, with a decided trend to the rich and fur-like plushes, glossy in their texture, warm and durable.

And there are models cut along the tailored English lines, or after complicated French designs, some with fur and some without—the former having three skin

collars and huge fur cuffs of muff-like roominess—the latter making up for lack of fur with pannier pockets, yokes and narrow belts, or with fine tucks or cartridge pleatings in the heavy cloth.

Colors show an inclination to be somber, navy, black, and heather tone having equal popularity with brown—the latter varying from the deep earth brown to the lighter coffee shades. And when the fabric has been tucked or pleated, collared and cuffed and cuffed to the limit of perfection, it takes to itself a fascinating lining of plain or patterned silk, to show the world at large it's gay at heart, as a winter coat should be.

Gloves

Consider the trifles that make for perfection, whether it be of gowning or selecting a Christmas gift, indeed, the one may be closely allied with the other. And why shouldn't your choice of a present for her who rightfully insists on perfection in the most minute details, be any one of a score of style of individually perfect gloves. Which does she effect, one clasp, two clasp, 16 button, mousquetaire or gauntlet styles? Soft French kid, glace or cape, in black, brown, tan or gray. Whichever her favorite we have it in a dozen varieties and all the leading shades for street and ceremonious wear.

Christmas Greeting Cards

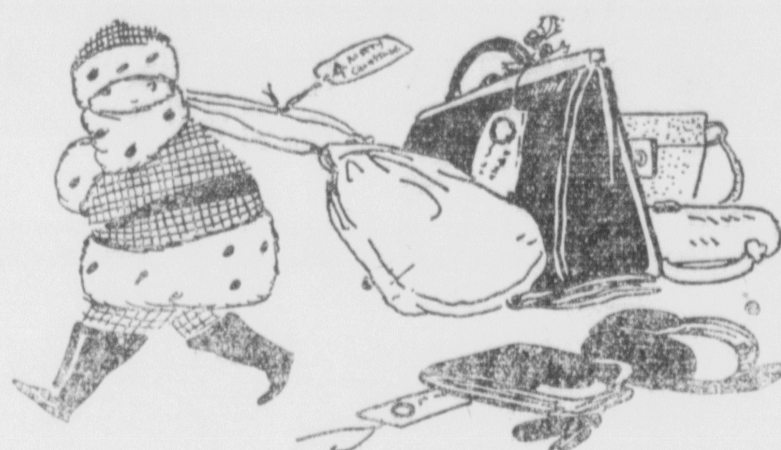

When Christmas candles are alight and Christmas glees are being sung, we'll all be surely thinking of our distant friends, and wondering how the day has fared with them. And the selection of just the right sort of card to bear greeting for that day, across the country or overseas, requires patient care and no small amount of time, so it behooves the thoughtful person to make early selection at her leisure—choosing a quaint little sampler card, an old-time silhouette in black and white, or perhaps, just a jolly line of greeting with only a spray of holly for its decoration.

Then there are gay colored cards and ribbons and clever Christmas stamps and seals to give a touch of gaiety to holiday letters and packages.

Bring the Children to Toyland

Bags

A Gift that gives true reason for its being, has a subtle sense of fitness and brings beauty into personal use, is the always necessary bag of silk or velvet, beads, brocade, or leather. For nowadays there must be a bag for each occasion in the social calendar, ranging from the leather "tailor made" of deceptive roominess, plump with samples and what not of the shopper, to the exquisite bags that had their conception in the land of France, where "hand made" is the synonym for rare workmanship and beauty. Bags for the street, bags for afternoon, for dinner, for dancing, each with individuality, character and charm.

MORE COAL IS READY FOR USERS

As far as could be ascertained Monday morning there were two cars of coal in the city in the dealer's hands. One of these cars was set Monday noon while the other was placed at the disposal of the dealer in the morning. Several other cars are on the local sidings but have not been turned over to the consignees.

Some dealers reported they had not a pound of coal in their yards and did not know when they could expect a car.

One ton to a customer was being allotted Monday. While there is no general rush for coal, means are taken to make the supply go as far as possible.

Owing to the fact that the majority of the households are fairly well supplied with coal in this community the situation is not regarded as serious at present.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.

Candidates

If any proof was needed to convince even the most prejudiced partisans that the political leaders either failed to appreciate the vital importance of the problems confronting the nation, or have wilfully and deliberately placed partisanship and political expediency above patriotism and public duty it is furnished by the audacity with which so many officials, who have spent the greater part of the last year at Washington doing nothing are turning wholly to politics.

Nearly every candidate, who has thus far announced himself as a candidate, either active or receptive, dwells upon a policy of obstruction, destruction and complaint. They are more concerned by far, in dodging responsibility or complaining about everything that has been done than they are in making suggestions as to the way out of present difficulties.

There is abundant room to complain about what has not been done at Washington by the office-holding politicians and about what has been done wrong, too, but the men who seek place in the 1920 campaign must tell the people what they will do if elected.

The next candidate for president must have a program of construction and so must every candidate for Congress—Senate and House. It has been perfectly apparent that the aim among officials, generally speaking, at Washington during the past ten months, has been to do nothing and to prevent any other official from doing anything.

Members of the Senate which killed the peace treaty seem to take pride in the condition they have assisted in bringing about. There is no regret expressed that this nation has not yet made a treaty with Germany; there is no expression of anxiety that the many badly needed laws have not been enacted; there is no apology for the lack of any attempt to settle upon grave national and international policies and agreements, but there is pride expressed in the work of obstruction carried on so successfully.

It is a shameful condition—suspected for months—but proven now by the political activity.

Not a man who has not made an honest effort to solve the nasty snarls in which the nation's affairs are entangled, not a man who does not express genuine regret that nothing has been accomplished, should be permitted, by ill used electors, to even present his request for place and honor.

The only way for the people to put a stop to the kind of nonsense—yes worse than nonsense—that has held selfish and costly carnival at Washington for the past ten months is to emphatically veto any request of wilful or neglectful participants for political preferment.

We must have in the next administration—executive and legislative—men who do things and the place-seeker who comes, proud of his blank record of achievement, in times like these should be refused a respectful hearing.

POETRY FOR TODAY

BUY—PLEASE BUY

"What terrible creature! Who would buy
Such ridiculous dolls are those,
With their painted eyes and sawdust feet?"

Americans, I suppose!
With my eyes of glass, I'm not in their class.

And people will understand
That every cent that on me is spent
Is a help to the glorious Government
Of the wonderful Fatherland.

Who'll buy? Who'll buy?
To aid the Fatherland?"

I'm only a little painted doll.
That was made in the U. S. A."
(She spoke in a thin, painted voice,
That was very far away).

"They say I'm dear, and my hair
looks queer.

And I cannot bend my knees.
Perhaps its true; he's crippled, too.
The boy that made me to send to you;
But we'll do our best to please.

Who'll buy? Who'll buy?
Little girls aren't hard to please.

"It isn't easy to fashion dolls.

When you've left an arm in France,
That each little girl in the U. S. A.
Might have a little girl's chance.
Then, what if my hair has a queerish air,

And my eyes are a painted gray?
My hands are clean and my heart is whole.

And I'm proud to the depths of my
sawdust soul
To be made in the U. S. A!
Please, buy! Please, buy—
For the boy, and the U. S. A!"

MEMOIR.

On Saturday night, Nov. 9, 1919, the gates between this world and Eternity were opened and another soul ushered in—Rachel Ann, daughter of Robert and Sarah Smith Goldsberry, was born near Frankfort, Ohio, Feb. 21, 1844 and departed from this life at the age of 75 years and nine months. At the age of five years she came with her parents near Bloomington, of which place she was a resident during her young life. At the tender age of 14 years she united with the Methodist Episcopal church at that place, and at the age of eighteen years was married to Hiram Mitchell Friend, August 28, 1862. For nineteen years they resided in Fayette county, and they moved to Summit Hill, where they have ever since resided. They celebrated their Golden Wedding anniversary in 1912.

She is the mother of twelve children; Laura (Mrs. Wm. Miller); McPherson; James; Joseph; William; Lizzie (Mrs. R. C. Tefft); Ervin; Ella (Mrs. L. M. Tefft); Walter; Austin; Grace (Mrs. Carl Osborn) and Clara (Mrs. Dan Wipert). All are living except two, Austin, whose short life here lasted only ten months, and died in the year of 1881; William preceded his mother three years ago, at the age of forty-five.

She has forty-one grandchildren and eighteen great-grandchildren.

She was sick only a few days, all was done that possibly could be done for her. Her children were with her constantly, ministering to her, trying so hard to make mother comfortable. Her favorite passage of Scripture was "Come unto Me all ye that labor and are heavy laden and I will give thee rest."

Rev. Upton, of the M. E. church of Waverly, conducted the services and used this for his subject. Seldom has a farewell sermon been made more impressive. She was conscious to the last and when the end came, she folded her arms so peacefully as if to say "Now Lord I have come to Thee, and Thou hast given me rest."

Rev. Upton spoke of her wonderful Christian character and how her life would be a memorial for generations. She was a devoted wife, an affectionate mother always ready and willing to sacrifice for the comforts of her children, grandchildren, friends and neighbors. She loved children, children loved her, schools were closed in her honor, so the teachers and pupils could pay their last tribute of respect.

"The Home of the Soul" and "Rock of Ages," her favorite hymns, were sung. Acting as pallbearers were the sons and sons-in-law. A large number of friends accompanied the family to Bloomington for the interment. "Sad and lonely is our home, Where dear Mamma used to roam, Weary days and nights have we Since her dear face we cannot see." Husband and Children.

CARD OF THANKS.

N. C. R. MAN'S WIFE TELLS FINE STORY ABOUT HUSBAND

Says he was down and out from stomach trouble. Bloating made him uneasy around his heart; breathing difficult.

Dreco overcame these troubles; loosened his bowels and gave him strength.

Speaking recently of her husband's troubles, Mrs. Arthur Jarrett, wife of the popular National Cash Register Millwright, residing at Alexanderville, near Dayton, said:

Mr. Jarrett has suffered for some time from a stomach and bowel disorder, which made him very uncomfortable at times. After meals he would become bloated with gas, which became so bad at times that it pressed against his heart and scared him up. Felt like his heart was going to stop beating. His breathing would become difficult and he would pant for breath. His bowels were bound up most of the time and he often had to take medicine to move them.

So many persons were praising Dreco that I finally persuaded him to try it. He has taken three bottles and he is a happy man today, because he is free from all these annoying troubles. His bowels became active and move freely every day, with no further aid of medicines. He is deeply grateful for what Dreco did for him, and so am I.

Dreco aids the stomach in digesting the food; relieves the gas; overcomes constipation, rouses a lazy liver to full action, tones up the kidneys; creates an appetite; induces sound sleep and quiets tired nerves.

All good druggists now sell Dreco and it is highly recommended in Washington C. H. by Frank Christopher.

SOCIAL : PERSONAL MENTION : CLUBS

Two more delightful parties engrossed the attention of Miss Helen Harper Saturday—the last of the pre-nuptial series arranged in her honor.

At one o'clock Mrs. Loring L. Brock gave a luncheon of exceptional beauty and elaborateness. The table, exquisite in appointment, and laid with twelve covers, charmingly introduced the bridal idea. Its central decoration was a lovely doll, in complete bridal outfit with long train, veil and nosegay of bride's roses, from which fell garlands of smilax and white ribbons encircling the bride. Ropes of smilax extended from the chandelier to the four corners of the table and blue candles burned brightly in mahogany candlesticks. The place cards were dainty souvenirs.

Four courses of luncheon delicacies were served.

SEÑORITA'S LOVER FLIRTS WITH DEATH

PALACE THEATER

H. B. Warner, the famous Robertson-Cole star, has a virile and colorful vehicle in "The Gray Wolf's Ghost," a screen adaptation of Bret Harte's exciting tale of early California days.

The fascination and glamour of Harte's characters are graphically portrayed, and the whole story has lost none of its gripping intensity in its screen adaptation.

The action of the play begins when Harry West, whose father had deserted him and his mother many years before, goes in search of his father to demand justice for the wrong done.

At the "Inn of the Dove," near the old Gutierrez Rancho, Harry meets Marija, beautiful daughter of Dona Maria Gutierrez, whom his father had cheated out of most of her land, and falls in love with the senorita after she had rescued him from death at the hands of Pereo, a superstitious retainer of her family. Pereo is a fanatic on the subject of an old Indian prophecy that foretold disaster to the Gutierrez family if a daughter of the house should marry one of another blood.

Harry's skintint father is found murdered, and he is accused of the crime by a jealous lover of Marija's. Indicted by the half-crazed Pereo, the natives are about to lynch Harry, when a strange and unusual incident which throws the superstitious natives into a panic, occurs, and Harry escapes and succeeds in making his way to his rival's cabin where Marija is held prisoner. In the cabin a desperate fight ensues, which ends with the rescue of Marija by Harry from his rival.

Warner is given full scope for his rare dramatic ability, playing the double role of Dr. West and Harry.

Rita Stanwood, in private life is Mrs. Warner, plays opposite her distinguished husband in the role of Marija.

PALACE THEATER Thursday and Friday December 5 and 6.

CHOLERA SPREADS IN ROSS COUNTY

The Chillicothe Gazette states that hog cholera is spreading in some parts of that county, and that in one instance the authorities are investigating with a view to prosecuting a man who has refused to properly dispose of the carcasses of hogs which died with the disease.

The Gazette says in part: "Ross county has been particularly hard hit by the epidemic, one farmer losing seventy-five head in a few days. In Huntington township, cholera had been practically unheard of for nearly fifteen years but at this time the vicinity is full of it, also the county surrounding Richmond, Frankfort, and Clarksburg has been hard hit but latest reports are that it is on the wane and farmers are hopeful of saving their porkers."

The serum treatment has been largely instrumental in stopping its course, many of the largest herds being given treatment which has been successful, and local veterinarians claim that it is the only logical means of killing the cholera germs.

HEATING PLANT CAUSES BLAZE

Faulty construction of a pipe connect with a heater at the home of Joe Crosswhite on Harrison St. was the cause of the fire department being summoned at 5:15 Saturday evening. An asbestos covering over the pipe had slipped out of place and caused the blaze.

One of the worst things about a Prodigal Son is that the poor fish always wants to claim he had bad luck instead of bad morals.

The Ireland home was the liveliest place in town and there were no happier children than those who frolicked through the big rooms.

Besides games there were three contests which delighted the youngsters. Henry Brownell, Jr., won the prize in an entirely new contest, "An Indoor Field Meet." Thurman Shepard carried off the honors in a peanut hunt and Florence Moss in the pumpkin contest.

The scene in the dining room, where the children were served with refreshments, was exceedingly gay and pretty, with dozens of balloons, all colors, floating up from the table, the children shrieked with joy to find additional favors of popcorn balls on the end of their strings. The young guests were also delighted with individual birthday cakes on which burned a red candle.

Assisting Mrs. Ireland in caring for the children were Mrs. Mada Hughey, Mrs. Martin Hughey, Mrs. S. A. Murry and Miss Myrtle McCoy.

"Y" NOW SCENE OF ACTIVITY IN EVERY BRANCH

Big Association Building Assuming More Important Place in the Community.

Open House Friday Night Will Afford Everyone Opportunity to Attend.

After three months of preparation the local "Y" is now able to offer a comprehensive program and a plant, every room of which is equipped for some phase of activity.

The religious work program has thus far consisted of Sunday afternoon meetings for boys and men. These meetings, especially for the boys, have been exceedingly well attended and will be continued throughout the winter and spring months. Some of the strongest speakers that the country affords will be presented to the men of this city and county. Later on Bible classes will be added to the list of activities. A Bible conference is one of the big things to look forward to.

The general secretary holds himself at the disposal of the churches to be used for the general good. A male chorus is being organized that will have part in some of these meetings as well as in the social work. The last Sunday of every month, instead of a men's meeting there will be a mixed meeting to which the women are invited.

The physical department, under the supervision of Physical Director Klesler, is already assuming proportions that are taxing the capacity. A schedule of classes comprising every conceivable group, almost, is now in progress. Added to the classes are Volley Ball, Basket Ball, Swimming, Boxing, Wrestling, etc., etc. The schedule of classes fills the time, but there is always room for more participants.

The social department started the season with a most successful Halloween social. The next affair will be the opening night, Friday, December 5th. On this occasion the entire community is invited. That means women as well as men. On this evening the new Bowling Alleys will be opened and the use of the building generally will be demonstrated.

The next affair of note will be New Year's day open house.

The educational department has started and is well under way. The success of three out of the five classes is already assured. Those successful classes are Stenography and Typewriting, Bookkeeping and Automobile. The classes not yet fully assured are Business English and French. For both of these classes we have most excellent instructors and for the times—no two classes are more needed for lives of efficient and true culture.

The boys' department under the effective leadership of Glenn Boots, is making good progress. Attendance of over one hundred boys at the various Sunday and other meetings is becoming a common thing. A new game room, almost noise-proof, has been provided for the boys. This means that the boys have two game rooms, and all the privileges of gym, pool, Sunday meetings, moving pictures, social occasions, hikes, cross country runs and many other activities.

LOCAL FIRM TAKES FRANKLIN AGENCY

The automobile sales firm of Carlough & Griffiths has taken over the agency in Fayette county for the Franklin automobile, in connection with its other cars, and is planning to give full service in addition.

The new agency will be conducted as a separate department, with sales rooms in new buildings to be constructed in connection with Carlough & Griffiths rooms on Market street, and is to be known as the Franklin Sales Agency.

CONFERENCE TO BE HELD AT THE "Y"

Despite several announcements to the contrary the Fayette County Red Cross chapter wishes it understood that the Red Cross conference, on Tuesday, will be held at the Federated Club rooms at the Y. M. C. A.

Every person is asked to come and stay all day, bring their luncheons and enjoy the big basket dinner at the noon hour.

Another talented speaker has been secured for the conference. Miss Helen Burton, of Cleveland, will take up the Junior Red Cross work.

Of All Sad Words the Saddest are "It Might Have Been"

We frankly admit we have used this heading to catch your eye. But it also points to a lesson for those who are today fortunate enough to live in Natural Gas territory.

Those who live in territory where the Natural Gas supply has been exhausted, and can observe the measures to stop waste in territory where natural gas is still available, are sadly saying, "It might have been."

Those communities now realize that had they paid more for natural gas, they would have used less to meet their needs and as a consequence would be now enjoying cheap, clean fuel.

Indiana is a good example of this condition. There the price was LOW, the waste was GREAT, and the supply was EXHAUSTED in sixteen years.

We are advised by one of the largest fuel supply companies that for natural gas, the same fuel that was riotously wasted in sixteen years in that state,—Indiana cities are now offering \$1.00 per thousand cubic feet at the state line.

Fortunately for Washington C. H. we have been able to close a contract which enables us to sell Natural Gas in this city at present for 60c net. The price to us has been materially advanced. That increase forces us to raise the price to the consumer.

The new price we are putting into effect is no more than enough to cover the higher cost to us, depreciation on our operating property, and a fair return on the actual investment.

Some Ohio cities paying a rate as low as 30c have willingly gone as high as 90c per thousand cubic feet to force down waste and thus make the available supply last many years longer. This is the trend of the times in the natural gas business. Cities not willing to stop waste by higher prices are being cut off the lines and because of inadequate supply will never again be connected.

We shall continue this subject in our next statement.

IMPORTANT SESSION HELD BY W. C. T. U. WORKERS ON FRIDAY

The local W. C. T. U. met Friday at two o'clock p. m. at the Y. W. C. A. The county president, Mrs. Taggart, who has recently returned from the national convention, held in St. Louis, gave a most interesting report. The county executive held a meeting in the forenoon and many of the county officers and workers remained to hear the splendid report.

She first told of the address given by Anna A. Gordon, national W. C. T. U. president, the report was filled with enthusiasm throughout. Anna Gordon said in opening: "This is indeed a Victory Convention. Since the last national convention held in Washington, D. C. in 1917 the national prohibition amendment has passed the Congress and has been ratified by the legislatures of all but three of the forty-eight states.

Since the war-time prohibition went into effect July 1st there has been a surprising decrease of crime in all large cities.

The immense strikes of the last few weeks have been attended with less violence than strikes of equal magnitude before prohibition.

In regard to law enforcement she

said to evade the law was treason.

By request of Mrs. Taggart Mrs. York and Mrs. Frank Haines sang a temperance song entitled, "Law enforcement." It was written by Anna A. Gordon.

Mrs. Taggart then continued the report.

The world's tri-annual convention will be held in London, England, in April, 1920. Mrs. Taggart has been named as a delegate from Ohio.

There are 46,000 members in Ohio. Our state led in gain in members for the last year; gain being 1532. Ohio also had the largest delegation at the convention. Some of the convention slogans were as follows:

Sound the Jubilee.

Enforce the Law.

Work for world prohibition.

Pray without ceasing.

Do your best and God will do the rest. The department of health and morality was emphasized.

One aim is world wide prohibition in 1925. Many countries are falling in line now. Women are taking an active part in bringing this to pass. God is unfolding his plan, as the world is able to receive it.

New York has one woman in the legislature, and as each legislator is provided with a cuspidor, and she realizing them unsightly, unhealthy things used as such, place it upon her desk and put a fern in it.

All things are good if used rightly. Many of the soldier boys took an active part at the convention. Mother Carleton who was mother to the boys at Fort Des Moines, Iowa was much honored by the boys, she sang very very sweetly at the convention. She knew how to create a homelike atmosphere around the camp and her cookie jars were never empty.

Mrs. Taggart's report was very fine throughout and filled with enthusiasm. The local Union added one new name that of Mrs. J. C. Cadwallader, who has been very active worker in the past in Clinton County, what is their loss will be our gain.
